

**VOLUNTARY REMEDIATION PROGRAM
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PROJECT SUMMARY

Site Name:	McQueen's Used Cars
Applicant's Name:	McQueen's Used Cars
Site Location:	1860 N. Arlington Avenue Indianapolis Marion County
VRP Site Number:	6950403
Project Manager:	Karla McDonald
Date Application Received:	April, 1995
Date Project Completed:	December, 1995
Project Duration:	8 months
Contaminant Group(s):	Petroleum
Media Cleaned Up:	Soil and Groundwater
Cleanup Goals Achieved:	Tier II Nonresidential
Deed/Land Use Restrictions:	Nonresidential

Project Description: This site had subsurface soil and groundwater contamination from a leaking underground storage tank system, possibly in 1991 or before. Impacts were especially found near a former fuel island on the property. The site had been using hydrocarbon-seeking bacteria to remediate the affected soils and groundwater. Periodic sampling was performed until the levels of the constituents of concern had decreased to a point that they were below the Tier II Nonresidential cleanup levels.
